GA RIVER CRUISE EXAMPLE

150 m inland river cruise ship, 640 guests — educational example

Overview

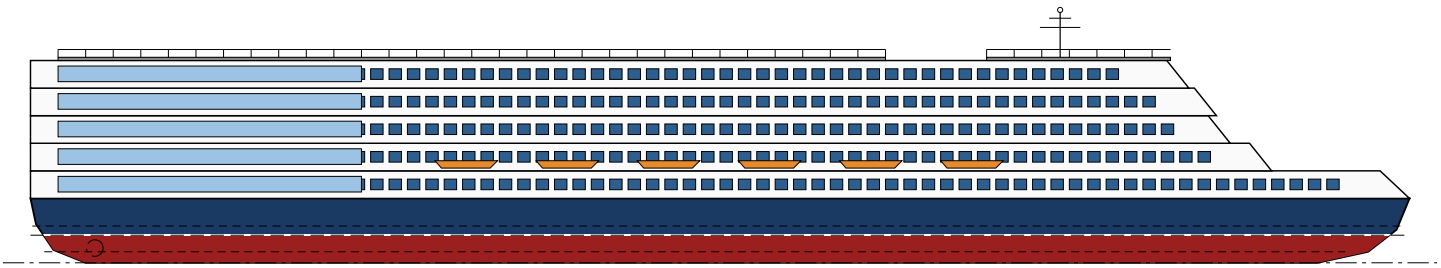

A generic river cruise ship: an illustrative concept of a modern inland-waterway passenger vessel with a shallow-draught hull, electric propulsion and a layered passenger layout. Eight deck levels carry about 230 cabins and suites in eight categories, restaurants and lounges aft, cabins amidships, a cafe / lounge forward and an open observation deck on top. The crew, service spaces and machinery are on the two lowest decks.

Principal particulars
