GA TANKER EXAMPLE

115,000 dwt crude / product oil tanker — educational example

Overview

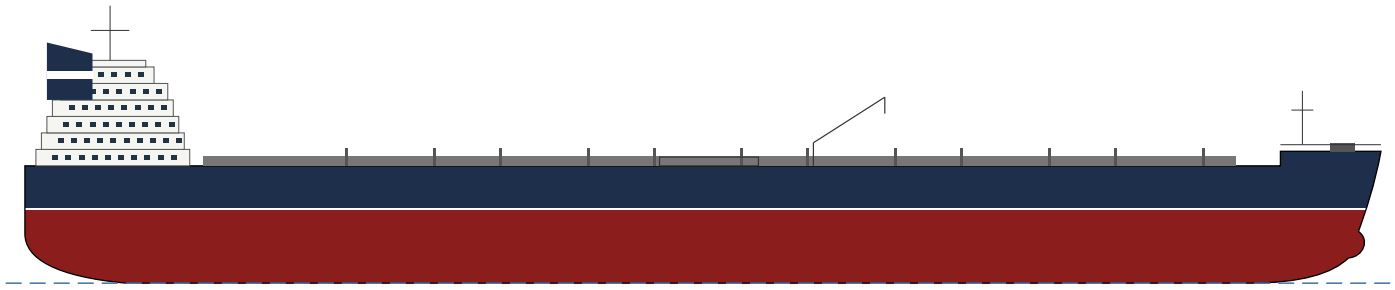
A double-hull crude / product tanker of 115,000 dwt for worldwide trading in clean and dirty cargoes. Conventional tanker layout: accommodation and machinery aft, six pairs of centre-line-divided cargo tanks with a pair of slop tanks and a pump room abaft them, and a forecastle with a bulbous bow forward. Each cargo tank pair is flanked by 2.6 m wing ballast tanks over a 2.4 m double bottom. Cargo is handled by three main pumps, three segregated deck lines and a five-line manifold amidships served by two hose-handling cranes. A single slow-speed diesel drives a fixed-pitch propeller; a bow thruster aids manoeuvring.

Principal particulars	
Type	Crude / product oil tanker, double hull
Length overall	250 m
Length between perp.	240 m
Breadth, moulded	44 m
Depth, moulded	21.4 m
Draught, design / scantling	13.5 m / 15.0 m
Deadweight, scantling	115,000 t
Service speed	14.5 kn
Complement	28 persons

Cargo	
Cargo tanks	6 pairs + 1 pair slop tanks
Cargo capacity (100%)	122,000 m^3
Cargo pumps	3 x 3,000 m^3/h
Manifold	5 lines amidships, 2 hose cranes
Wing tanks / double bottom	2.6 m / 2.4 m

Machinery	
Main engine	1 x slow-speed diesel, 12,000 kW
Propeller	fixed pitch, single screw
Bow thruster	yes

PROFILE



Colour side view of the example tanker. The simplified general arrangement is on page 2.

DISCLAIMER — EDUCATIONAL EXAMPLE ONLY, NOT FOR ANY PROFESSIONAL USE

Based on: a public general arrangement drawing of a crude / product oil tanker, redrawn and simplified; names and figures made generic. This document is a simplified, unofficial illustration made for teaching. It is not a design, drawing or specification issued by any shipyard, designer, owner or classification society, and it has not been checked or approved by any of them. Dimensions, capacities and arrangements are approximate, simplified or assumed. Do not use it for design, construction, operation, purchase, chartering, certification or any other professional or regulatory purpose. MIDSHIP SECTION

MAIN DIMENSIONS	
Length overall	250 m
Length bp	240 m
Breadth, moulded	44 m
Depth, moulded	21.4 m
Draught design / scant.	13.5 / 15.0 m
Deadweight (scant.)	115,000 t
Cargo capacity 100%	122,000 m3
Speed / engine	14.5 kn / 12,000 kW
REQUIREMENTS	
Double hull, MARPOL Annex I	
Segregated ballast tanks	
Inert gas system; crude oil washing	
6 pairs COT + 1 pair slop	
3 cargo pumps x 3,000 m3/h	
5-line manifold; 2 hose cranes	
Wing tank 2.6 m; double bottom 2.4 m	
Bow thruster; helicopter winching	
Complement: 28 persons	
EDUCATIONAL EXAMPLE	
Illustrative, not a real ship.	
not for construction	

CRUDE / PRODUCT OIL TANKER
